Subject: Re: Rolling Knolls Landfill

Sun, we were under the impression that it has already been conveyed to Jim that we have a strong preference for keeping this issue at the regional level. But if you think it would be helpful for John to reach out to him, we can ask him to do that. It's unclear what DOI's next step is, but we are currently working on comments on the FS, based on our conversations with you and Robin. We will share those with DOI, which may spark an additional push. We submitted the lead information to Michele. Is there anything else you need from us?

Thanks!
Chloe

Hi Chloe,

Do you know if John has reached out to Jim about DOI's plan to elevate the issue to HQ?

Thanks,
Sun

Kim –

Wednesday (September 5<sup>th</sup>) at 11:00 works. We will call in from the Region so please provide me with a call-in number?

This conference call has been arranged at the request of Lois Wye (August 29 letter to EPA) to discuss 1) DOI's recommended revisions to the draft FS, or more specifically, DOI's revisions to the remedial alternatives to be considered in the FS for the site, and 2) location-specific ARARs associated with the wilderness area of the site. The Region is working closely with EPA HQ and is prepared to discuss these issues with you. In addition to Sarah Flanagan and myself, Jeff Josephson will join Stephanie Vaughn, Betsy Donovan, Supinderjit Kaur, and Rachel Griffiths for the Regional Superfund Program. Michael Sivak of the Regional Superfund Program may attend part of the call.

Thanks for your help in arranging this conference call.

Juan

Hi Juan,

The time next week that works for everyone from DOI is Wednesday at 11:00 am. If that time doesn't work for EPA, let me know and we will try to find an alternative.

In addition to those of us that attended the meeting at the refuge, we anticipate that the following individuals will be on the call:

Cally Younger - DOI Deputy Solicitor for Land Resources  
Matt Ballenger - DOI Acting Associate Solicitor for Land Resources  
Andrea McLaughlin - FWS, Chief of Environmental Compliance Branch  
Bill Lodder - Lead, Environmental Cleanup & Liability Management, DOI Office of Environmental Policy and Compliance

Please let us know who will be participating on the call from EPA.

Thanks, Kim

Dear Kimberly and Melissa –

In response to Lois Wye request, we do think a call would be appropriate. We would like to have the call next week. In addition to the Region 2 people working on the site, I expect individuals from EPA's legal and program offices in HQ to participate in the call.

Please provide dates and times that you would be available for such a call and, if possible, the names of the people that will participate.

Thanks,

Juan M. Fajardo

Assistant Regional Counsel

**Subject:** DOI Comments on Revised Draft FS for Rolling Knolls Landfill Superfund Site

Dear Ms. Flanagan and Mr. Fajardo,

During our meeting with EPA Region II last week on the draft feasibility study (FS) for the Rolling Knolls Landfill Superfund Site, we agreed to provide you with additional information to further explain DOI's concerns, including a track-change version of the document with our suggested revisions. Attached please find a letter from Lois Wye, the Associate Solicitor for Environmental Compliance and Response, summarizing DOI's concerns and transmitting the track-change document, along with other information that we believe may be helpful to EPA in understanding DOI's role.

As indicated in the letter, we believe it would be useful to schedule a follow-up conference call with you at your earliest convenience to answer any questions you may have and discuss how best to move forward to finalize the FS. We can work with Juan to find the best time to schedule this call with you both.

Sincerely,

Kim Childe
